## Changing Young Lives for Good

**N**orthwest Behavioral Healthcare Services provides residential services to troubled youth, ages 12 to 17 who meet clinical admission criteria. The staff of Northwest has shown itself to be successful with those more “difficult to treat” — especially those with a dual diagnosis who require a secure setting for their care.

A view of majestic Mt. Hood from our backdoor.

**B**eing located in a quiet quarter of Gladstone (a suburb of Portland, Oregon), Northwest is just off I-205 (exit 11).

**H**aving a heart for our neighbors, we provide Drug and Alcohol Assessments by appointment as a free service to our community. Urinalysis is provided at our lab’s cost.

**S**ervices at our organization are commonly covered by most medical insurance plans. Special financial arrangements are also available.
